

Acquisition of ₹17K cr 56 transport aircraft OK'd

DEPNs ■ NEW DELHI

In an effort to enhance the Indian Air Force's (IAF) capabilities to transport personnel and equipment, the Cabinet Committee on Security (CCS) on Wednesday approved the procurement of 56 C-295MW transport aircraft from Airbus Defence and Space S.A., Spain. The deal is worth over ₹17,000 crores.

Giving details here, officials said 16 aircraft will be procured

off-the-shelf within 48 months of signing of the contract and 40 aircraft will be manufactured in India by TATA Consortium within ten years of signing of the contract.

This is the first project of its kind in which a military aircraft will be manufactured in India by a private company. All 56 aircraft will be installed with indigenous Electronic Warfare Suite. The project will give a boost to aerospace ecosystem in India wherein

several medium and small enterprises (MSME) spread over the country will be involved in manufacturing of parts of the aircraft.

This plane is capable of air-lifting five to ten tons and fitted with latest technology will replace the ageing Avro planes now in service since 1960s. The new aircraft has a rear ramp door for quick reaction and parachute dropping of troops and cargo.

The manufacturing pro-

gramme will provide major boost to the 'Atmanirbhar Bharat Abhiyan' as it offers a unique opportunity for the Indian Private Sector to enter into technology intensive and highly competitive aviation industry. The project will augment domestic aviation manufacturing resulting in reduced import dependence and expected increase in exports.

A large number of detail parts, sub-assemblies and major component assemblies of

aero structure are scheduled to be manufactured in India. The programme will act as a catalyst in employment generation in the aerospace ecosystem of the country and is expected to generate 600 highly skilled jobs directly, over 3,000 indirect jobs and an additional 3,000 medium skill employment opportunities with more than 42.5 lakh man hours of work within the aerospace and defence sector of India.

It will involve development of specialised infrastructure in form of hangars, buildings, aprons and taxiway. During the process of manufacturing in India, it is expected that all the suppliers of TATA Consortium who will be involved in special processes will gain and maintain globally recognised National Aerospace and Defence Contractors Accreditation Program (NADCAP) accreditation.

IAF to get 350 aircraft in next 2 decades: Air Chief

PNS ■ NEW DELHI

Facing the ever present threat of a two-front war simultaneously with Pakistan and China, the IAF is looking at procuring around 350 aircraft in the next two decades, Air Chief Marshal RKS Bhadauria said here on Wednesday.

In an address at a conference on the Indian aerospace sector, he also talked about the need for developing asymmetric capabilities to bolster the IAF's overall strength in view of challenges from China. "Looking at the northern neighbour, we have to

have niche technologies which must be built in-house by our own industry for reasons of security," the IAF chief said.

Emphasising that India becoming self-reliant in the defence sector is crucial for dealing with various challenge, Bhadauria said the IAF is looking at procuring around 350 aircraft from within the country in the next two decades. He, however, said it is a rough projection.

The IAF chief also said the Tejas light combat aircraft project has instilled confidence in the aerospace industry in India.

Textiles sector gets boost with ₹10,683 crore PLI scheme

PNS ■ NEW DELHI

The Union Cabinet on Wednesday approved the production-linked incentive (PLI) scheme worth ₹10,683 crore for textiles sector with an aim to boost domestic manufacturing and exports. The cabinet "has approved the PLI scheme for textiles for MMF (man-made fibre) apparel, MMF fabrics and ten segments/ products of technical textiles with a budgetary outlay of ₹10,683 crore," Textiles Minister Piyush Goyal told reporters here.

Prime Minister Narendra Modi later tweeted that the PLI scheme will make India emerge as hub for global textiles manufacturing and enhance women empowerment. "Our textiles sector plays a vital role in the economy. In order to give a further boost to the sector and strengthen our endeavour to create an Atmanirbhar Bharat, the Cabinet today approved a PLI Scheme for textiles," he said.

"Through the PLI Scheme in textiles, India seeks to emerge as a hub for global textiles manufacturing. The PLI scheme will further women empowerment and accelerate progress in the aspirational districts," added Modi.

PLI scheme for textiles is part of the overall announcement of the scheme for 13 sectors made earlier during the Union Budget 2021-22, with an outlay of ₹1.97 lakh crore. The scheme for textiles will help promote production of high value MMF Fabric, Garments and Technical Textiles in the country. The incentive structure has been so formulated that industry will be encouraged to invest in fresh capacities in these segments, said Goyal.

MSP for rabi crops gets hike

PNS ■ NEW DELHI

In the midst of farmers' protests, the minimum support price for rabi crops has been increased between ₹35 and ₹400 for the 2021-22 crop year (July-June) and 2022-23 marketing season. The Cabinet Committee on Economic Affairs (CCEA) chaired by Prime Minister Narendra Modi hiked the MSP for six rabi crops - Wheat, Barley, Gram, Lentil (Masoor), Rapeseed, Mustard and Safflower - with an aim to ensure remunerative prices to the growers for their produce.

According to a statement issued by the government, the MSP for wheat has been increased by ₹40 to ₹2015 per quintal from ₹1,975 per quintal. The cost of production of wheat is estimated at ₹1,008 per quintal. The Government has procured a record of over 43 million tonnes of wheat during 2021-22 rabi marketing season.

After the CCEA decision, Prime Minister Narendra Modi said the Cabinet's approval to increase the MSP for Rabi crops will ensure maximum remunerative price for farmers and also encourage them to sow a wide variety of crops. "Taking another big decision today in the interest of farmer brothers and sisters, the Government has approved the increase in MSP of all Rabi crops," Modi tweeted.

Rahul pseudo expert, says Pradhan

PNS ■ NEW DELHI

Education Minister Dharmendra Pradhan on Wednesday hit back at Rahul Gandhi for demanding the postponement of medical entrance exam NEET, saying the Congress leader was a "pseudo expert" with an "overflowing vanity and a misplaced sense of entitlement".

Criticising Rahul Gandhi for "questioning the wisdom" of the Supreme Court and experts on the NEET schedule, Pradhan said that "yuvraj (prince)" should stick to "his expertise of concocting lies than issuing statements on matters he has no understanding of".

The minister's response came after the former Congress President called for the postponement of the NEET examination as many other examinations are scheduled around September 12. Alleging that the government is "blind" to students' distress, Rahul Gandhi had urged the Centre to let students "have a fair chance" in the exams.

On Monday, the Supreme Court refused to defer the National Eligibility-cum-Entrance Test (NEET)-UG examination scheduled for September 12, saying it does not want to interfere with the process and it will be "very unfair" to reschedule it.

"Rahul Gandhi perceives himself to be an expert on everything without having an iota of knowledge. Overflowing vanity & misplaced sense of entitlement of a failed crown prince is no alibi to meddle into the schedule of examinations, give undue stress & make the students suffer," Pradhan tweeted.

T'gana to deliver medicines, vax through drones

PNS ■ NEW DELHI

From Thursday, Telangana Government will start the trials of delivering medicines and vaccines through drones under the 'Medicine From The Sky' project. The trial flights will be conducted from September 9 to October 10 at Vikarabad (Hyderabad), and a majority of them will be by tech start-up Skye Air Mobility. This will make Telangana the first state in the country to start trials of Beyond Visual Line of Sight (BVLOS) drone flights for delivery of COVID-19 vaccines.

According to the Telangana government, the 'Medicine From The Sky (MFTS)' project's first two days of trials will be flying in the visual line of sight, which involves drones flying between 500 and 700 meters from the base and they can be seen with the naked eye.

Delhi-based drone delivery tech firm Skye Air Mobility has tied up with Blue Dart to initiate a three-phase trial for Telangana Government that starts with flying drones, each carrying 175 vaccines. BVLOS drone flights are those that go beyond 500-700 metres from the eye's vision or beyond the visual line of sight.

From September 11 onwards, BVLOS drone flights will take place for 9-10 km distances. These flights will be with consignments of vaccines, medical samples and other healthcare items, it said.
